Update to December 2021 Notice: Discontinuation of 3M™ Scotchcast™ 5XXX Series Powder Resins**Notice: Extension to the Discontinuation of 3M™ Scotchcast™ 5XXX Series Powder Resins Intended only for US Military/Defense Related Business for Electrical Markets Division - OEM (100042) Customers**

To Our Valued Customers,

In December 2021, 3M announced the discontinuation of 3M™ Scotchcast™ 5XXX Series Powder Resins. In order to help support customers servicing the US military/defense industry in their transition to alternative solutions, 3M will extend the discontinuation of 3M™ Scotchcast™ 5XXX Series Powder Resins products [purchased to fulfill U.S. military contracts] from April 1, 2022 to December 31, 2022.

Customers must submit last time buy purchase orders by May 31, 2022 and the last date of supply will be no later than December 31, 2022. Please be aware, however, that suppliers 3M utilizes may not have the capacity to supply 3M with raw materials necessary to fulfill orders. We will keep customers informed if raw material constraints impact supply. Due to potential raw material constraints, 3M reserves the right to accept or deny orders after receipt. Any balance of material after last time buy orders have been fulfilled may be offered for purchase on a first-come, first-served basis.

Below is a list of SKUs impacted:

SAP ID	Material Name
7000006254	3M™ Scotchcast™ Electrical Resin 5230N, 60 lb
7000058465	3M™ Scotchcast™ Electrical Powder Resin 5555, 10G, 44 lb
7100025953	3M™ Scotchcast™ Electrical Powder Resin 5555, 22G, 44 lb
7100027869	3M™ Scotchcast™ Wire Coating Powder Resin 5400, 50 lb

Please note that, 3M will increase prices starting April 2, 2022. The increases will be significant. They are necessary, in part, because 3M is incurring significant additional costs to maintain production of these products. Similar to the original discontinuation letter communicated in December 2021, 3M will honor current

pricing on 50% of the volume of material purchased in 2021. Any additional volume, or purchase orders received after April 1, 2022, will be subject to April 2, 2022 prices.

If you have any questions about the discontinuation, please contact your local 3M Sales Representative or Customer Service at (800) 676-8381.

Thank you for your continued support.

Sincerely,
Kurt Siebert
Global Product Manager, Electrical OEM Insulation
